

A STAR IS BORN...

#### GENERAL PROGRAM DESCRIPTION

A "STAR IS BORN" is an evening program which incorporates a sing song and musical contests into a camp wide activity. It is intended to introduce music into the program and to provide a coffee house type of atmosphere for groups who have just returned from their first set of program trips and activities. The M.C. for the program is instrumental to the creation of an atmosphere in which everyone is willing to preform and to sing.

#### PROGRAM OBJECTIVES

1. to provide an opportunity for different program groups to interact for the first time,
2. to cultivate a "musical pre-disposition" and to demonstrate that singing at camp can be fun,
3. to provide examples of some musical activities,
4. to ignite the "cabin group" experience,
5. to provide an indoor, CWA after the first set of out-trips,
6. to introduce the resource team,
7. to have lots and lots of fun.

#### PROGRAM PROCEDURES

The program will be announced at dinner to provide cabin groups some time to practice their songs. Groups will also require some time to settle into their cabins and to jot in their journals. since this is the only evening program and it is intended to be a fairly relaxed evening, it doesn't matter what time it begins. It should, however be finished no later than 10:30. Once clean up is completed and the "musicians" have started to jam, anyone is welcome to join. The rest of the camp should be rounded up before the planned part of the program begins. Check with the M.C., Mr. Wolfman (Bambi) Davis!

The dinning hall tables will be set up slightly different from regualr eating times with candle pots on the tables and a stage area somewhere other than the centre which is used for the IMIT Banquet. A coke dispenser and coffee urn will be available and snacks will be served at the tables during the program.

## PROGRAM COMPONENTS

Air Band Contest: Each cabin group, as well as the senior class will be instructed to bring along a cassette tape with a song on it which they will perform air band style.

Walkman Contest: Each cabin group will enter one or two people in the sing along with the walkman contest. The Sherbrooke Lake Singers could pretend to accompany. However the only people who will hear the music will be the people with the headphones on!

Of course there will be lots of opportunity for Lyle to conduct us in anything he wants, since he won't be doing his environmental music session this year. Just save something for the IMIT Banquet, Brenda may need it! Some other ideas include that no instrument stuff, Squish Squish, and The Sherbrooke Lake Singers for Sun. J.R., Sandy, George, Clarence, Jude, Lyle, and anyone else who happens to be there with any form of an instrument will comprise the Sherbrooke Lake Singers for Sun.

There will be prizes, of sorts. If you have any requests, ideas or concerns please forward them to;
